Art Unit: 3753

This Action is responsive to the communication filed October 31, 2007.

Claim 16 is withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on May 26, 2006.

This claim is grouped with the combination of Group III since it positively recites the combination elements.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-2, 4, 6-7, 11, 25-28, 30 are rejected under 35 U.S.C. 102(b) as being anticipated by Kilayko.

It is believed that the pertinence of the reference is readily apparent. The recitation "for feeding a cleaning fluid to at least one nozzle opening of a nozzle" and further recitations of "cleaning" relate to intended use and are given no weight. Kilayko shows a valve in Figures 1-3 with inlet 12 and outlets 14 and 22, ball 24 controls flow to the outlets and shuts off flow to outlet 22, which corresponds to the recited first path.

Claims 1, 12, 14, and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Blank.

It is believed that the pertinence of the reference is readily apparent. The second valve position is shown in Figure 2 by dashed lines. The recitation "for feeding a cleaning fluid to at least one nozzle opening of a nozzle" and further recitations of "cleaning" relate to intended use and are given no weight.
